

Index to Volume 34

Authors and Titles

- Ash, J.—
Growth rings, age and taxonomy of
Dacrydium (Podocarpaceae) in Fiji 197
Demography and production of *Leptopteris wilkesiana* (Osmundaceae), a tropical tree-fern from Fiji 207
- Ashford, A. E. See Grenville, D. J. 95
- Ashton, D. H.—
Ecology of bryophytic communities in mature *Eucalyptus regnans* forest at Wallaby Creek, Victoria 107
See also Myers, B. A. 15
- Auld, T. D.—
Dormancy and viability in *Acacia suaveolens* 463
- Beardsell, D. V., Clements, M. A., Hutchinson, J. F., and Williams, E. G.—
Pollination of *Diuris maculata* (Orchidaceae) by floral mimicry of the native legumes *Daviesia* spp. and *Pultenaea scabra* 165
- Beilharz, V. C. See Kadkol, G. P. 595
- Bennett, P. H., and Van Staden, J.—
Gall formation in crofton weed, *Eupatorium adenophorum* (syn. *Ageratina adenophora*) by the *Eupatorium* gall fly *Procedidochares utilis* (Diptera: Trypetidae) 473
- Boland, D. J., and Sedgley, M.—
Stigma and style morphology in relation to taxonomy and breeding systems in *Eucalyptus* and *Angophora* (Myrtaceae) 569
- Boland, D. See Chappill, J. 395
- Bowen, G. D. See Reddell, P. 435
- Boughton, V. H.—
Phyllode structure, taxonomy and distribution in some Australian acacias 663
- Bowman, D. M. J. S., and Kirkpatrick, J. B.—
Establishment, suppression and growth of *Eucalyptus delegatensis* in multiaged forests.
I. The effects of fire on mortality and seedling establishment 63
II. Sapling growth and its environmental correlates 73
III. Intraspecific allelopathy competition between adult and juvenile for moisture and nutrients, and frost damage to seedlings 81
- Brown, A. H. D. See Doyle, M. J. 523
- Burrows, G. E.—
Axillary meristem ontogeny in *Araucaria cunninghamii* 357
- Cameron, D. F. See Ogle, H. J. 537
- Carr, D. J., Carr, S. G. M., and Lenz, J. R.—
Leaf venation in *Eucalyptus* and other genera of Myrtaceae: implications for systems of classification of venation 53
- Carr, S. G. M. See Carr, D. J. 53
- Chambers, T. C., and Regan, M. A.—
Polyxylon australe—a new cladoxylalean axis from the Devonian of Australia 675
- Chappill, J., Ladiges, P. Y., and Boland, D.—
Eucalyptus aromaphloia—a redefinition of geographical and morphological boundaries 395
- Christophel, D. C., and Lys, S. D.—
Mummified leaves of two new species of Myrtaceae from the Eocene of Victoria, Australia 649
- Clements, M. A. See Beardsell, D. V. 165
- Collins, B. G., and Spice, J.—
Honeyeaters and the pollination biology of *Banksia prionotes* (Proteaceae) 175
- Corner, E. J. H.—
The genus *Clavulina* (Basidiomycetes) in south-eastern Australia (comment on a paper by R. H. Petersen) 103
- Dallwitz, M. J. See Watson, L. 223
- Dell, B. See Wallace, I. M. 41
- Dill-Macky, R. See Irwin, J. A. G. 281
- Dodson, J. R.—
Holocene vegetation and environments near Goulburn, New South Wales 231
- Dodson, J. R., and Myers, C. A.—
Vegetation and modern pollen rain from the Barrington Tops and Upper Hunter River regions of New South Wales 293
- Dowd, J. M. See Martin, P. G. 187
- Doyle, M. J., Grant, J. E., and Brown, A. H. D.—
Reproductive isolation between isozyme groups of *Glycine tomentella* (Leguminosae) and spontaneous doubling in their hybrids 523
- Forcella, F., and Wood, H.—
Sequential flowering of thistles (Cynareae, Asteraceae) in southern Australia 455

- Gill, A. M., and McMahon, A.—
A post-fire chronosequence of cone, follicle and seed production in *Banksia ornata* 425
- Grant, J. E. See Doyle, M. J. 523
- Grenville, D. J., Peterson, R. L., and Ashford, A. E.—
Synthesis in growth pouches of mycorrhizae between *Eucalyptus pilularis* and several strains of *Pisolithus tinctorius* 95
- Groves, R. H., Hocking, P. J., and McMahon, A.—
Distribution of biomass, nitrogen, phosphorus and other nutrients in *Banksia marginata* and *B. ornata* shoots of different ages after fire 709
- Halloran, G. M. See Kadkol, G. P. 595
- Harwood, C. E. See Raymond, C. A. 377
- Heinrich, P. A., and Patrick, J. W.—
Phosphorus acquisition in the soil-root system of *Eucalyptus pilularis* seedlings. II. The effect of ectomycorrhizas on seedling phosphorus and dry weight acquisition 445
- Hocking, P. J.—
Mineral nutrient composition of leaves and fruits of selected species of *Grevillea* from south-western Australia, with special reference to *Grevillea leucoptera* 155
See also Groves, R. H. 709
- Humphries, C. J. See Ladiges, P. Y. 603
- Hutchinson, J. F. See Beardsell, D. V. 165
- Irwin, J. A. G., Dill-Macky, R., and Stirling, M.—
Taxonomic studies on Australian isolates of *Stemphylium* spp. and associated teleomorphs 281
- Irwin, J. A. G. See Ogle, H. J. 537
- Johansen, H. W., and Womersley, H. B. S.—
Haliptilon roseum (Corallinales, Rhodophyta) in southern Australia 551
- Johnston, C. R. See Watson, L. 223
- Kadkol, G. P., Beilharz, V. C., Halloran, G. M., and Macmillan, R. H.—
Anatomical basis of shatter-resistance in the oilseed brassicas 595
- Kantvilas, G. See Petersen, R. H. 217
- Kaul, V. See Williams, E. G. 413
- Kennedy, J., and Weste, G.—
Vegetation changes associated with invasion by *Phytophthora cinnamomi* on monitored sites in the Grampians, western Victoria 251
- Kirkpatrick, J. B.—
The viability of bush in cities—ten years of change in an urban grassy woodland 691
See also Bowman, D. M. J. S. 63, 73, 81
- Ladiges, P. Y., and Humphries, C. J.—
Relationships in the stringybarks, *Eucalyptus* informal subgenus *Monocalyptus* series *Capitellatae* and *Olsenianae*: phylogenetic hypotheses, biogeography and classification 603
- Ladiges, P. Y. See Chappill, J. 395
- Newnham, M. R. 331
- Lang, A. R. G.—
Leaf area and average leaf angle from transmission of direct sunlight 349
- Lenz, J. R. See Carr, D. J. 53
- Loneragan, J. F. See Wallace, I. M. 41
- Lys, S. D. See Christophel, D. C. 649
- Macmillan, R. H. See Kadkol, G. P. 595
- Martin, P. G., Dowd, J. M., Morris, C., and Symon, D. E.—
The study of plant phylogeny using amino acid sequences of ribulose-1,5-bisphosphate carboxylase. VI. Some *Solanum* and allied species from different continents 187
- McGee, P.—
Mycorrhizal associations of plant species in a semiarid community 585
- McMahon, A. See Gill, A. M. 425
Groves, R. H. 709
- Morris, C. See Martin, P. G. 187
- Myers, B. A., Ashton, D. H., and Osborne, J. A.—
The ecology of the mallee outlier of *Eucalyptus behriana* near Melton, Victoria 15
- Myers, C. A. See Dodson, J. R. 293
- Newnham, M. R., Ladiges, P. Y., and Whiffin, T.—
Origin of the Grampians shining peppermint—a new subspecies of *Eucalyptus willisii* 331
- Ogle, H. J., Irwin, J. A. G., and Cameron, D. F.—
Biology of *Colletotrichum gloeosporioides* isolates from tropical pasture legumes 537
- Osborne, J. A. See Myers, B. A. 15
- Owen, J. V. See Raymond, C. A. 377
- Palser, B. R. See Williams, E. G. 413
- Patrick, J. W. See Heinrich, P. A. 445
- Petersen, R. H.—
Response to E. J. H. Corner 105

- Petersen, R. H., and Kantvilas, G.—
Three lichen-forming clavarioid fungi from
Tasmania 217
- Peterson, R. L. See Grenville, D. J. 95
- Pook, E. W.—
Canopy dynamics of *Eucalyptus maculata*. IV.
Contrasting responses to two severe
droughts 1
- Potts, B. M.—
Population dynamics and regeneration of a
hybrid zone between *Eucalyptus risdonii*
and *E. amygdalina* 305
- Raymond, C. A., Harwood, C. E., and Owen,
J. V.—
A conductivity method for screening
populations of eucalypts for frost damage
and frost tolerance 377
- Reddell, P., Bowen, G. D., and
Robson, A. D.—
Nodulation of Casuarinaceae in relation to
host species and soil properties 435
- Regan, M. A. See Chambers, T. C. 675
- Robson, A. D. See Reddell, P. 435
- Rogers, R. W.—
The genus *Pyxine* (Physciaceae, lichenized
ascomycetes) in Australia 131
- Rouse, J. L. See Williams, E. G. 413
- Sedgley, M. See Boland, D. J. 569
- Spice, J. See Collins, B. G. 175
- Stirling, M. See Irwin, J. A. G. 281
- Symon, D. E. See Martin, P. G. 187
- Van Staden, J. See Bennett, P. H. 473
- Wallace, I. M., Dell, B., and Loneragan, J. F.—
Zinc nutrition of jarrah (*Eucalyptus
marginata*) seedlings 41
- Watson, E. M.—
Cytorevolutionary studies in the genus *Bulbine*
(Liliaceae).
I. The Australian perennial taxa
(*B. bulbosa* s.l.) 481
II. The Australian annual taxa (*B. semibarbata*
s.l.) 505
- Watson, L., Dallwitz, M. J., and Johnston,
C. R.—
Grass genera of the world: 728 detailed
descriptions from an automated
database 223
- Weste, G.—
Vegetation changes associated with invasion
by *Phytophthora cinnamomi* of defined plots
in the Brisbane Ranges, Victoria, 1975–
1985 633
See also Kennedy, J. 251
- Whiffin, T. See Newnham, M. R. 331
- Williams, E. G., Kaul, V., Rouse, J. L., and
Palser, B. R.—
Overgrowth of pollen tubes in embryo sacs of
Rhododendron following interspecific
pollinations 413
- Williams, E. G. See Beardsell, D. V. 165
- Womersley, H. B. S. See Johansen, H. W. 551
- Wood, H. See Forcella, F. 455
